Dance Review Classes are open to all dancers,
Beginner-Advanced

In 1997, the San Gabriel Valley Branch began presenting a series of special classes each summer covering various topics of interest, and inviting guest teachers to teach lessons on topics which were particularly inspiring to them. We've missed a few summers over the years, including during COVID, but we're still calling this year's event our 30th Annual Summer Series. For most of its history, the classes were weekly, but in the past few years, we've had the great luxury of two classes each week, which has enabled us to invite a greater variety of guest teachers from far and wide.

This year's guest teachers all hail from the Los Angeles Branch. We will welcome Bill Hartung, Kris McGinnis, and Ann McBride to our classes this summer.

We tried to book Robert Burns, but he was busy.
